A) Tissues

49% — All tissue edges
0.07%
100% — Tissue edges in at least 25% of networks
2.12%
100% — Tissue edges in at least 50% of networks
2.23%

Legend

- Unique edges in a given context
- Edges in at least 25% of networks in a given context
- Edges in at least 50% of networks in a given context
- Edges in at least 75% of networks in a given context

B) Cell types

56.6% — All cell type edges
0.16%
100% — Cell type edges in at least 25% of networks
0.97%
100% — Cell type edges in at least 50% of networks
0.94%

C) Cell lines

71% — All cell line edges
0.09%
100% — Cell line edges in at least 25% of networks
0.88%
100% — Cell line edges in at least 50% of networks
1.13%
